

# GOAL SUMMARY

This worksheet is used to summarize your "A" ranking goals which will be used for your daily goal journaling. The purpose is to narrow down your entire list of goals and prioritize the most important for your life (short and long term). You may have a entire list of A goals in one category but as we all know it's very difficult to focus on so many goals. It will force you to change some of your A goals to a B, or C goal. Keep in mind you might have an A goal with a 3 year time frame which is very important you. It's not necessary to only have short term goals that will be written into your daily journal.
